Approximately five hundred members were represented either in person or by proxy. There were actually 136 members present at the meeting. It was the largest meeting of the association ever held.

The main business of the meeting was the election of Directors of the Association for the coming year, and this resulted in the election without opposition of the eleven men who were serving in this capacity, as follows: C. Mr. Cliff C. Ferrell, manager of the Association showed by charts the growth of the association and the distribution of each dollar of energy sold. ## ALTAR SOCIETY NEWS

The meeting Wednesday afternoon though not largely attended, was a success so far as business matters discussed were concerned.

The organ fund is growing satisfactorily, and there is a neat little sum in the treasury.

Flowers were sent in for the church altars last Saturday and more are promised for this week end. We thank the donors, and hope that the coming Sundays will be taken care of in like manner.

The second church fair was discussed. It will take place Saturday August 31st and Sunday, Sept. 1st. And now for a big piece of news—some one is going to own a Bendix washing machine, and some one will have a new R. C. A. radio. What do you think of that? Father Desmond was present and distributed books for these items, and anyone disposing of one book is entitled to a free chance. This should really send sales soaring.

The machine will be on display soon, so don't fail to watch for it and try your luck, while at the same time help a worthy cause.

And now let's not forget the paper drive. Just one more week, Saturday, July 27th all the paper and rags you can put out will be picked up. If you know of anyone who does not know about this drive, tell them about it. We want all those old papers and rags that are in your way— you want to get rid of them and we want them. Clean up your place and we will turn the trash into cash.

With Ella Raines and Rod Cameron

"The Runaround," an exciting story of a missing heiress and a cross-country woman-hunt by a charming but reckless private detective, will open Sunday and Monday at the Ortte Theatre.

The Universal comedy drama stars Ella Raines in the role of an attractive and willful heiress Rod Cameron is co-starred as the hard-boiled sleuth. "The Runaround" marks the first time that these two have pooled their talents.

The locale of this diverting story is the whole United States, from New York to San Francisco and back again. The plot concerns a man and a woman thrown together by an extraordinary situation and who fall in love in spite of themselves.

Director Praised  
Screwily directed by Charles Lamont, "The Runaround" features excellent character portrayals by Broderick Crawford, Frank McHugh, and George Cleveland. They are ably supported by Nana Bryant, and Joan Felt.

The screenplay was authored by Arthur T. Horman and Sam Hellman. Horman and Walter Wise authored its original story.

The film was produced by Joe Gershenson. The surprise ending is said to promise an extra thrill for moviegoers who see the show from the beginning.

## THANK YOU FOR YOUR PATIENCE!

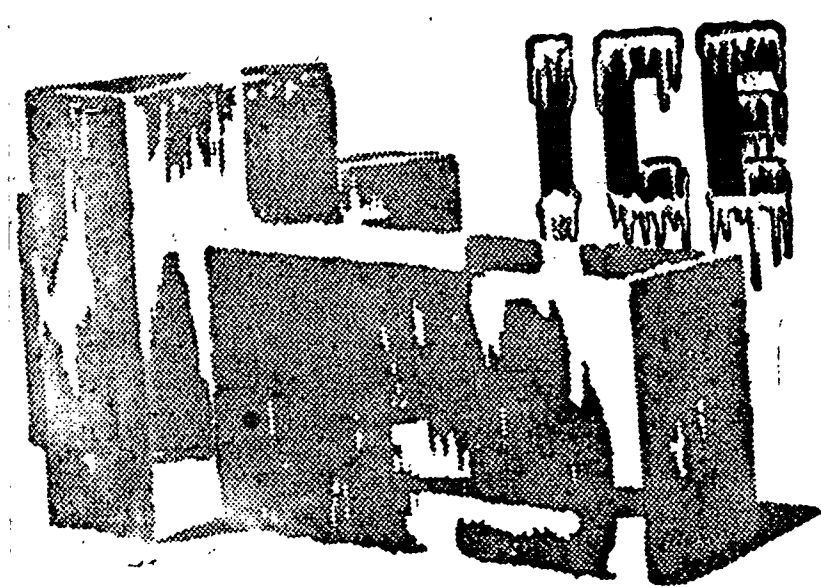

If you have applied for electric service, we want to thank you for your patience because, in many cases, we have not been able to get service to you as promptly as either of us would like.

We want to reassure you that we are going to get service to you just as soon as conditions will permit. The chief obstacle is the non delivery of wire, transformers (for both lines and substations), hardware, insulators and other equipment, and materials without which electricity cannot be delivered. Even with production beginning again on full scale, the nation-wide demand is so great that deliveries will continue to be slow for some months.

There is no shortage of electricity on the Mississippi Power Company system. We have ample reserves to supply every present and potential need for electric service. We have an ambition to handle all requests for electric service promptly and, therefore, last year placed large orders for materials and equipment for service extension. Factories making them were closed, so deliveries on those orders have dwindled to a mere trickle. However we are ready to go ahead as soon as necessary materials and equipment are delivered to us.

## A. & G. THEATRE SUNDAY AND MONDAY "FROM THIS DAY FORWARD"

Starring Joan Fontaine in  
Absorbing Drama—Mark  
Stevens in First Big Role  
Opposite Star

Joan Fontaine emerges in one of her most brilliant roles as the young wife in RKO Radio's new romantic comedy-drama, "From This Day Forward." Playing opposite her is brilliant young Mark Stevens, in his first screen role of any consequence. The story covers the married life of a young couple from 1937 to the present day. Susan and Bill Cummings are just an ordinary American couple. Susan has a job with a publisher and Bill is turret lathe worker. Bill is determined that he and Susan shall have security when they marry. Susan's in-laws, the fantastic Beesley family, do not have security, and as a consequence, life for them is just one domestic brawl after another. With this example before him, Bill is for waiting, but Susan sets his fears at rest, and they are married.

The youngsters have more than the usual share of discouragements and their love is often sorely tested. Bill is occasionally laid off, new jobs are hard to find, and Susan often has to carry the whole load. Once he comes home drunk and quarrelsome, but Susan guides them through this crisis.

Then Bill has to go to war. They survive that, too, and when he comes safely home, they find that their love, having come through every test, is stronger than ever. They are gay and unafraid, find life good, and look forward to the future.

The supporting cast of "From This Day Forward" consists of Rosemary DeCamp, Henry Morgan, Wally Brown, Arline Judge, Renny McEvo, Bobby Driscoll, Queenie Smith, Doreen McCann, Mary Treen and Erskine Sanford. William Pereira produced under the supervision of Jack J. Gross, John Berry directed. Garson Kanin adapted Thomas Bell's novel, "All Brides Are Beautiful," for the production, and Hugo Butler fashioned the screenplay.

Air-conditioned stores get the business—and wise business men have their stores GAS-CONDITIONED. Modern natural gas air-conditioning installations maintain constant temperatures regardless of the season, provide ideal working conditions—never too hot, never too cold. Smaller units will soon be available for the average home... at a price you can afford to pay! They're low in cost, economical to operate, and as dependable as the system that stands back of them. We who live in the Gulf South enjoy rich advantages over residents of other areas... advantages of comfort, convenience and economy... because we have dependable natural gas service. In 313 Gulf South communities, the facilities of the United Gas Pipe Line Company assure that dependability. They link your gas burners with 6,000 miles of main pipe lines, connect them with more than 1,000 producing gas wells in hundreds of fields. That's dependability—unequaled anywhere in the country.

A PRICE TAG  
that stands out!

Although your cost of living has steadily increased, here is one thing—an important thing in your life—that actually costs you less today than it did fifteen years ago. It's your telephone!

This record of low cost performance, in these times of rising prices, is enough alone to stand out like a beacon in the night.

In addition the service has greatly expanded and as more telephones have been added the relative cost to the user has steadily declined. Today you can reach many more people by telephone—the better to serve your needs for business or personal use.

This record—which stands out as an achievement—is becoming more and more difficult to maintain as the costs of everything going into the furnishing of telephone service continue to rise.
